

K-love is my favorite radio station. It keeps me uplifted as I am reminded daily of God's love. People everywhere need to hear music filled with hope and joy. K-love supplies this and it would be a tragedy to take it off the air. It is the only local Christian radio station that provides just music-many people get burnt out on lots of talks or interviews. If K-love is taken away, the community will be left without positive and encouraging music full of hope, love and promises. This would not be a pretty picture.
